

Meet the Teacher

2022-2023

about me:

I'm Ms. Renee
(Nay Nay) 😊

hi!

I have been working with children of every age for almost 18 years. Toddlers are one of my favorite age groups because of the excitement the world has to offer them. I feel humans are truly at their most kind, funny, and somewhat confusing once they start to become more self aware, and it's a new story to a new book each day. Watching my daughter Margaux, who will be three in October, reminds me to laugh at something every day, and that someone believes in you. I try to make sure my kids in class know that every day also.

I love jumping out of planes!

fun fact:
